POLICY STATEMENT:

Based upon our criteria and review of the peer-reviewed literature, reconstructive breast surgery after surgical mastectomy, including partial mastectomy (e.g., lumpectomy, segmentectomy, quadrantectomy) for benign or malignant disease, is medically appropriate, and may include the following services:

I. All stages of reconstruction including, but not limited to:
   A. Breast implants;
   B. Abdominal flap reconstruction;
   C. Nipple/areola reconstruction and tattooing; and
   D. Surgery for symmetry of the contralateral (opposite) breast;

II. Basic breast prosthetic(s) and mastectomy bras; and

III. Treatment of physical complications of mastectomy, including lymphedema.

This policy only refers to breast reconstruction services. For services regarding reduction mammoplasty please refer to Corporate Medical Policy #7.01.39, Reduction Mammaplasty.

Refer to Corporate Medical Policy #1.01.17 regarding Pneumatic Compression Devices/Lymphedema Pumps.

Refer to Corporate Medical Policy #7.01.11 regarding Cosmetic and Reconstructive Procedures.

Refer to Corporate Medical Policy #7.01.35 regarding Bioengineered Tissue Products for Wound Treatment and Surgical Interventions.

DESCRIPTION:

Reconstructive breast surgery is defined as surgical procedures that are designed to restore the normal appearance of the breast after surgery, accidental injury, or trauma and may be based on the treatment a woman receives or the extent of surgery performed.

The reconstructive surgery may be performed in a single stage or several stages/phases and either during or after the surgical procedure. Reconstruction may include, but is not limited to:

I. Insertion of saline or silicone filled prosthetic implants;

II. Extensive flap reconstruction (e.g., deep inferior epigastric perforator [ DIEP] flap, gluteal artery perforator [GAP] flap, latissimus dorsi flap, superficial inferior epigastric artery [SIEA] flap, transverse rectus abdominus myocutaneous [TRAM] flap);

III. Nipple/areola reconstruction and tattooing; and/or

IV. Surgery for symmetry of the contralateral (opposite) breast.

The Women’s Health and Cancer Rights Act (WHCRA) of 1998, a federal regulation, mandated coverage of all stages of reconstructive surgery (including surgery and reconstruction of other breast to produce symmetrical appearance and prosthesis and treatment of complications following mastectomy) for all group health plans that provide medical and surgical benefits. This federal law requires most group insurance plans that cover mastectomies to also cover breast
reconstruction. A diagnosis of breast cancer is not required – preventive mastectomies are also covered under this mandate. The United States Departments of Labor and Health and Human Services oversee this law.

New York State Insurance Laws § 3216, § 3221, and § 4303, mandate coverage under all contracts that provide medical, major medical, or similar comprehensive-type coverage for:

I. All stages of breast reconstruction of the breast on which the mastectomy or partial mastectomy, has been performed; and

II. Surgery and reconstruction of the other breast to produce a symmetrical appearance.

CODES: Number Description

Eligibility for reimbursement is based upon the benefits set forth in the member’s subscriber contract.

CODES MAY NOT BE COVERED UNDER ALL CIRCUMSTANCES. PLEASE READ THE POLICY AND GUIDELINES STATEMENTS CAREFULLY.

Codes may not be all inclusive as the AMA and CMS code updates may occur more frequently than policy updates.

CPT: 11920 Tattooing, intradermal introduction of insoluble opaque pigments to correct color defects of skin, including micropigmentation; 6.0 sq cm or less
11921 6.1 to 20.0 sq cm, or part thereof
11922 each additional 20.0 sq cm
19324 Mammaplasty, augmentation; without prosthetic implant
19325 with prosthetic implant
19340 Immediate insertion of breast prosthesis following mastopexy, mastectomy or in reconstruction
19342 Delayed insertion of breast prosthesis following mastopexy, mastectomy or in reconstruction
19350 Nipple/areola reconstruction
19357 Breast reconstruction, immediate or delayed with tissue expander, including subsequent expansion
19361 Breast reconstruction with latissimus dorsi flap, without prosthetic implant
19364 Breast reconstruction with free flap
19366 Breast reconstruction with other technique
19367 Breast reconstruction with transverse rectus abdominus myocutaneous flap (TRAM), single pedicle, including closure of donor site
19368 with microvascular anastomosis (supercharging)
19369 Breast reconstruction with transverse rectus abdominis myocutaneous flap (TRAM), double pedicle, including closure of donor site
19370 Open periprosthetic capsulotomy, breast
19371 Periprosthetic capsulectomy, breast
